NOTES:

- Data is **REAL TIME** Data, so make sure what you change is correct for the existing data.
- Deletions are not able to be done at this time. **For any record needing to be deleted, remove the data EXCEPT the Last name, First name.**
- This is **LIVE**, so data integrity is enabled, so if you see it is not updating, someone else may be updating that record. Try again later.
- The Customer Database covers **ALL** persons involved as members, patrons, artists, non-members, etc. Please be wary about changes on this database with persons.
- You can freeze columns to move thru the data.

RULES ON ENTRY:

- Entering is case sensitive
- All rows do not need to be entered, but each table **will** create an empty record for future use.
- **DO NOT** use PERIODS or COMMAS!!
- State is two letters ex: **WI**
- **Address** for PO Box is PO Box. Do not separate the PO, no periods. PO Box should be on the first address line. This helps for labels and post office standards.

- IF there is a **PO BOX** address- and other street address – POBox goes in the first address field and Street address goes in the second address field. This is helpful for mailing labels for Post office Regulations- POBox first. If not POB, then street address goes in the first address field.
- Yes or No >**DO NOT USE ALL CAPS** = Yes, NOT YES. (This makes things accurate when reporting)
- Phone format = 715-256-9833 USE DASHES
- **YEAR** = **4 digits**, NOT 2. (2025)
- Volunteer fields are Years, to keep track of what year they can help (XXXX) Im sure we will be making changes to this in time. But we need to be consistent. This is a text field so if we want to make changes in the future we can.
- Business vs people. Business name goes into the LastName, First name will remain blank and Partner field will have the Full Owner Name.
